A. SIGNIFICANT ITEMS

None to report.

B. OTHER ACTIVITIES

1. EE has indicated a possible desire for an internal intensive (full-time) course in Hungarian for three persons to begin early in 1958 and to run for six months.
2. Based upon a single requirement for semi-intensive (half-time) Dutch reading, we are canvassing the Agency for other similar interests with the thought of satisfying all with a single training program conducted internally. We now have a probable three persons.
3. We now are trying to put together some stragglers interested in full-time French with a view to starting a special course for those whose interests were not brought to our attention in time for the course that began on 14 October.
4. ORR has decided to provide space, three recorders, booth and clerical supervision for a small laboratory in M Building. We now are providing consultation and ultimately will provide general supervision and maintenance of equipment. With this, [redacted] will be overseeing three laboratories. 25X1A9a
5. Our search inside and outside of the Agency for native speakers of Brazilian Portuguese to serve as drill-masters in a contemplated full-time course for six persons in WH has failed to locate qualified persons. Over thirty persons have been contacted. The search has involved around a hundred telephone calls. We probably shall suggest an adjustment in [redacted] program that will not seriously impede him but will permit the FSI to take this WH group. 25X1A9a
6. Our long effort to locate a suitable and qualified assistant in Chinese, especially vigorous recently, has not been successful so far. We are pursuing another possibility now that, if successful, will add quality, stature and character to the high prestige [redacted] creates. Various components have been extremely cooperative, even though their efforts for us have been unproductive. 25X1A9a
7. In response to discussion of Swahili we initiated two months ago in the Language Training IAC Roundtable, other agencies participating in the Roundtable are beginning to show small but firm interest in future training in Swahili. Internal contacts we have made have produced indications of small probable interest. NEA has indicated interest in training one or two persons at a time on a part-time (very limited objective) basis and FDD may have altogether three persons.

8. We are endeavoring to make special arrangements for training in Albanian for FDD.

9. Mrs. [REDACTED] has formally announced her intention to resign as of 1 November preceeding birth of an expected baby. She does not expect to return to CIA. She has been a very positive asset, first to [REDACTED] and then to [REDACTED] and the staff of Eastern Studies. 25X1A9a 25X1A9a 25X1A9a 25X1A9a

W 10. [REDACTED] will be married on 19 October and will be away about ten calendar days. [REDACTED] will act as Coordinator of the Voluntary Language Study Program. The program, now consisting of about 35 classes, is under good control and rolling well; so no major problems are anticipated. This seems like an appropriate place to comment that [REDACTED] is doing a superior job of making an orderly, systematic program out of a very complicated affair involving innumerable details and wide variety of persons and personalities. And I am sure [REDACTED] would not want this comment to go without its including commendation of [REDACTED] who, at one time or another, needs to contact the many, many students and who calmly keeps in order the myriad housekeeping details. 25X1A9a 25X1A9a 25X1A9a 25X1A9a 25X1A9a 25X1A9a

11. BCS-Germany #3 began on 15 October with ten students, three from EE, five from OCR, and two from other IAC agencies. A majority of the enrollees have, or are working toward, advanced degrees. Hence a quasi-seminar technique for discussions of current books and intelligence-oriented themes will be introduced in this offering of the course. [REDACTED] new chief of EE, who has been assigned almost continuously abroad since World War II, gave the key note talk on 15 October and expressed his thorough support of area and language training. 25X1A9a 25X1A9a 25X1A9a
